About This Content

Voltage Super Retro is Early Access DLC.
Voltage SuperRetro Edition has been released!

Voltage main game has graduated from Early Access, but Voltage Super Retro has not yet received latest updateds about performance and game logic. Update is coming 10th June at the latest.

VOLTAGE SuperRetro Edition is graphically designed to look almost 100% Amiga/C-64 -game, it is using special shaders. Now you can play Voltage with a SuperRetro look! Voltage Super Retro is graphically designed for hardcore Retro players! This DLC includes the same game as the main game (new update coming 10 th June (10.06.2019) at the latest!), but this version comes with ultra retro shaders, which makes Voltage look like Amiga / C64-game. So if you are more fan for ultra retro than main game future retro style, you can play now with SuperRetro -look!

Welcome to the Voltage SuperRetro Edition DLC store page! Now you can play Voltage with a SuperRetro look! Voltage Super Retro include all same Episodes and Sublevels as the main game, but with super cool retro look!

How to launch?
Launching SuperRetro is easy. After you have bought and downloaded it from Steam, you can launch it directly by using the launcher (just start the main game). To play this DLC, launch the main game and click Voltage Super Retro -icon on the menu.
